Parents, students, educators, physicians and the general community are invited to join us for

vaping & e-cigarettes
Education Tour

Updates on research and trends

Current statistics show that Colorado is significantly higher than the national average for high school age vaping. The Surgeon General recently declared vaping as an epidemic.

Dr. Glantz is Director of the UCSF Center for Tobacco Control Research and Education, Co-Leader of the Helen Diller Family Comprehensive Cancer Center Tobacco Program and a member of the Cardiovascular Research Institute and Philip R. Lee Institute for Health Policy Studies. He is an author or coauthor of numerous publications related to secondhand smoke and tobacco control, as well as many papers on cardiovascular function. He is the author of 5 books and nearly 400 scientific papers. Among them are Tobacco: Biology and Politics for High School Students and The Uninvited Guest, a story about secondhand smoke, for second graders.
